

900m Solid Dish Radome

EZ-RATRI09000

The e-zynet **RATRI09000** Radome Cover is an ideal way to provide additional protection to the Solid Dish antennas. This light weight radome kit features fiberglass construction and UV stable grey finish. Drain holes are provided on the radome cover to help prevent moisture build-up inside the dish antenna.

The Solid Dish Antenna Radome bolt directly to the Solid Dish antenna with the provided stainless steel hardware. Drilling mounting holes in the antenna is not required. The radome cover can be attached to existing antennas already mounted in the field or pre-assemble to the antenna before mounting.

The **RATRI09000**, 900mm radome can be used with the **SD5WR32INF** and **SD5WD32INF** Solid Dish antennas.

Features :

- Easy to install - attaches directly to dish.
- Drain holes in the radome help prevent moisture build-up.
- Light weight fiberglass construction & UV stable finish
